

medisana GmbH is one of the leading specialists in the home health care market. As part of the OGAWA Group, one of the world's leading manufacturers of massage products, we are represented in more than 40 countries with various brands. We are developing, promoting and distributing products in the categories of mobile health, health control, wellness, body care, therapy and healthy home for health-conscious consumers worldwide.

To strengthen our Quality & Regulatory Affairs Team in Neuss, we are looking for you to take on exciting challenges as a

Head of Quality Management (m/f/d)

Your area of responsibility:

- You lead the team for the entire Quality Management area, including medical devices, electrical devices, regulatory affairs, QMS as well as the structural and process development of the Quality department
- You prepare strategic decisions for regulatory affairs in Europe
- You provide strategic advice to the BU Medical and BU Non-Medical in Germany on all quality issues and regulatory requirements
- You will assume the responsibilities of the PRRC and QMB and act as a contact person for external bodies and authorities; you will conduct audits, being the process owner for CAPA, change management and risk management and the documentation system
- You will bring your experience with the requirements of design control and risk management into the development processes and ensure that the regulatory requirements are met

This is what distinguishes you:

- You have successfully completed a scientific, technical or economic education or a corresponding degree and have undergone further training in quality management and/or regulatory affairs
- You have several years of experience in the electrical equipment industry and have worked in a comparable management position in quality management and/or regulatory affairs; experience in the medical technology industry is desirable
- You know the relevant tools, systems and methods of quality management and have a deep understanding of processes and quality
- You have knowledge of regulatory requirements and laws in Europe, as well as of important QM standards
- You are a leader who acts in an entrepreneurial way and has high decision-making and motivational skills
- Your experience in change and project management will help you to develop and motivate your organization to achieve common goals
- You have a good sense for pragmatic approaches that enable you to streamline key processes
- You have very good English and German skills as well as excellent communication and negotiation skills
